Pigeon Flight Troubled by Strong Wind

A special pigeon race of the Los Angeles combine was held this last weekend. Only 95 birds participated since each member was allowed only two entries apiece, it was announced.

The race was a hard one with head-winds all along the course. There was a 4,000 ft. ceiling at Bakersfield, making it difficult to get through the pass with its 5,000 ft. ceiling, it was reported.

Only 18 birds homed the first day from Marysville, a distance of 409 miles.

Two Torrance residents owned winning pigeons. J. R. Richhart's pigeon came in 12th while Bob Mitchell's pigeon placed 18th, it was revealed.

Any bird which homed during this difficult flight was outstanding. Chances are that the birds broke into flocks, the fortunate ones finding the one and only right pass.

There will be three more races. The next two will be 500 miles and the third 600 miles, it was disclosed.
